I am a mechanical engineering Ph.D. graduate with ten years of industry project management and R&D experience.

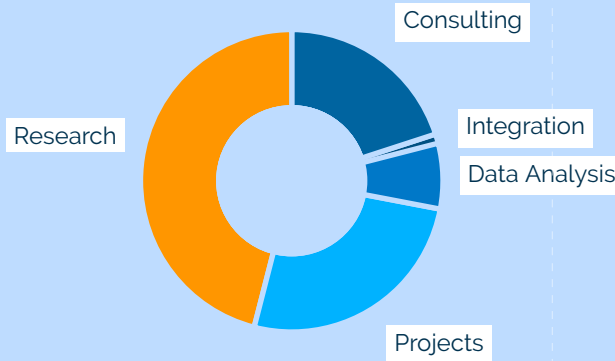

as latest degree from
Eskişehir Osmangazi University

I am looking for research projects that integrates scientific improvements to industrial applications.

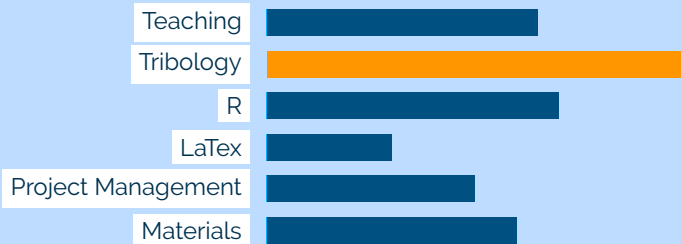

SKILLS AND TECHNOLOGIES

The biggest part I contribute to my work is in research and project integration to industrial applications.

LANGUAGES

 Turkish (native)
 English (expert)
 German (beginner)

I research tribological properties of industrial materials in order to find more productive applications. Formerly I worked as a project manager in a R&D company.

ACTIVITIES

In my freetime I do practice calligraphy and write science fiction stories.

 Running
 Science News
 Writing
 Fountain Pens

EXPERIENCE AND EDUCATION
